HIGHLIGHTS

IEEE System, Man, and Cybernetics Society (SMC), in cooperation with the International Council on Systems Engineering (INCOSE), is organizing the 16th International Conference on System of Systems Engineering (SoSE) to be held in the Stockholm region, Sweden.

Systems of systems have vast ramifications in numerous engineering fields such as control, computing, communication, information technology and in applications such as manufacturing, defense, national security, aerospace, aeronautics, energy, environment, healthcare, and transportation. The conference theme is “Autonomous Cyber-Physical Systems of Systems”. Papers on theories, methodologies, and applications of System of Systems Engineering in science, technology, industry, and education are welcome.

Papers should be five to six pages in length, in standard two-column IEEE Conference Proceedings format. Detailed instructions for paper submission and format can be found on the conference web site (<http://www.sosengineering.org/2021>).

Invitations will be made to the authors of the best papers to submit an extended version of papers to the following journals:

1. **IEEE Systems Journal** (<http://www.ieeesystemsjournal.org/>)
2. **Journal of Enterprise Transformation** (<http://www.tandf.co.uk/journals/UJET>)
